Congratulations to all winners, especially to Franta, OK1CA for winning Multiband!

Activity was better on 2m but 70cm was down and less entries there. 70cm still keeps being the forgotten or the “bad” band? On all other bands from 23cm and up activity and entries were up compared to last year. 23cm is THE band, at times it sounded like on HF.

All certificates for the first 10 places were sent out in August.

Comments by DL8HCZ:

2m: first 3 have more QSOs than last year's winner, 2014 16 entries vs. 8 in 2013.

70cm: winner has 10 QSO less than last years` winner SM4IVE who seems to have lost interest, similar like SV1BTR. Pity that those who fought so hard in the last years left now. 13 entries in 2014 vs. 17 in 2013.

23cm: winner 2014 again UA3PTW, but 10 QSOs more than 2013. First 9 in 2014 have more QSOs than winner last year. 52 entries 2014 vs. 34 in 2013.

13cm: same number of entries like in 2013, winner 2014 has 9 QSO more than winner 2013.

9cm: winner has 2 QSOs more than winner 2013, 14 entries vs. 11 in 2013.

6cm: same winner again (TM8PB = F2CT) with 9 QSO more than in 2013 – 20 entries in 2014 vs. 18 in 2013 – about 40 stations active in a 6cm EME contest could be a new record.

3cm: same winner as last year with 1 more QSO, and despite DL0EF UR7D, UA5Y and F5JWF missing in 2014 we have 18 entries vs. 16 in 2013.

Tnx to SM2CEW and LX1DB for checklogs
